Edu-Therapy[™] Solutions HEALING YOUR HEART

Edu-Therapy™ in First Nations, Métis and Inuit Communities

> Building Sustainable Mental Wellness Through Integrated Treatment and Training

A Cognitive Behavioral Model of Grief Resolution

Grief and possible traumas negatively effect our lives. Coming in waves, they have a cumulative effect that, if not acknowledged and treated, inhibits our ability to integrate in healthy ways and will continue to repeat

Separation
Disengagement

themselves. Physical reactions include:

Numbness
Hyperactivity

EDU-

Communities prepared with the Edu-Therapy[™] Process are stronger and more resilient. We are all stakeholders of the collective grief and trauma experience. The Edu-Therapy[™] Process creates a safe place to acknowledge, accept and integrate pain resolution processes - creating resiliency and long term healing. Once Certified as an Edu-Therapy[™] Specialist, in as little as 6 hours per week, one specialist can bring mental resolution of the pain and sadness caused by loss to over 200 people per year. Trained teams can escalate these numbers, adding to the overall resiliency.

CERTIFICATION TRAINING DATES

Winnipeg, MBJune 9-12, 2023	
Virtual	June 19-22, 2023
Saskatoon, SK	August 11-14, 2023
