

Co-ops and Internships at BCI

The Students We Hire

We welcome more than 200 students each year from across Canada, studying various disciplines such as:

Business · Communication · Computer Science · Economics · Engineering · Finance · Law · Math

Students are hired year-round, typically for four-month work terms. Students enrolled in an undergraduate or graduate program, as well as new graduates, are welcome to apply to our co-op and internship opportunities. We do not require students to be part of a registered co-op program or be returning to school.

What We Offer

We provide our co-ops and interns with many networking, learning, and growth opportunities to help them excel during their work term. We offer online learning resources and a dedicated co-op/intern-led learning hub to support continued education and professional development.

Furthermore, BCI is continually growing and transforming. We often hire students from our co-op and internship program for permanent positions, offering paths for career advancement within the organisation.
